

## PE & Sports Premium Fund - 2020-21

The PE and Sport Premium fund is to help primary schools improve the quality of PE and Sports activities they offer to their pupils. This is ring-fenced funding to spend on PE and Sport at the discretion of schools to decide what is best for their children. It has to be used to develop the knowledge, skills and motivation to equip pupils for a healthy lifestyle and participation in physical activity and sport.

At Oakleigh this will be in the context of other teaching that promotes healthy eating, to reduce the risks of obesity in later life, and develops life and independence skills so as to enable children and their families to live a full life in modern Britain as much as possible, rather than being restricted more than is necessary by their disabilities.

Oakleigh School will receive funding of approximately £16707 for the academic year 2020-21. Our aim is to improve opportunities for children both now and in their future, and to improve current and future provision at the school. In order to use this resource so as to be as inclusive as possible of the whole school population, we will continue to broaden the scope of the activities and learning supported, beyond taking part in sporting events. Many of our children have complex needs, and need to develop prerequisite skills in order to take part in physical education.

- Some children may need support simply to independently move, or to develop their reach and grasp before they can fully take part in activities.
- Some may have sensory processing issues, and need to develop their ability to explore objects with their hands, rather than seeking oral stimulation from objects in their environment.
- Some children need to develop their communication skills so as to be able to follow simple instructions before they will be able to take part in simple games.
- Some children may need support to interact socially, before taking part in a race or a team game becomes relevant to them.

This funding will be used at Oakleigh to support children's sensory and physical development through a range of motivating physical activities, both inside and outside through play as well as PE.

It will also be used to support as appropriate:-

- physiotherapy and hydrotherapy programmes
- offsite swimming
- physical and sensory development
- lunchtime and after-school clubs that themselves promote activity
- opportunities to try out different sports & games
- other physical activities
- health benefits
- the understanding of simple rules
- the social aspects of playing as a team
- interacting with peers and adults both in school and at offsite/community events

- physical skills being developed during playtimes
- fine and gross motor development and body awareness

Our curriculum has Sensory & Physical Development as one of the areas of learning. This is taught through lessons within the curriculum, such as in P.E., and through play, as well as via specific input from the physiotherapist and occupational therapist. We also integrate gross motor skills into many play activities, such as bike riding, parachute games, using large equipment outside and exploring materials.

We acknowledge the importance of our pupils with physical impairments having the opportunity to experience as much independent movement as they can.

Some of our Year 6 children are working towards swimming independently, but are not yet proficient over 25 metres.
